WHAT IS AN ADU?

An Accessory Dwelling Unit (ADU) is a secondary housing unit on a single-family residential lot. ADUs are independent living spaces that come with their own kitchen, bathroom, and sleeping area. They offer a flexible housing solution to increase the supply of affordable housing without altering the character of established neighborhoods. ADUs can serve various purposes, including housing for family members, a rental for additional income, or as a home office. Ask about our Junior ADU's or visit the website for additional details.
